

IMPLEMENTATION AND TESTING

Github: <https://github.com/SaiRoshini-25/dbms-startup.git>

1.Registration

The image shows two side-by-side registration forms. Both forms have the title 'Create account' and the subtitle 'Set up access for the incubator workspace.' The left form is for a 'Startup Representative' and the right form is for an 'Investor'. Both forms have the same input fields: a first name field (containing 'xyz' on the left and 'abc' on the right), an email field (containing 'xyz@gmail.com' on the left and 'abc@gmail.com' on the right), a password field (containing '...' on the left and '8137878112' on the right), a company name field (containing 'Tech' on the left and 'Tech' on the right), and a role dropdown menu (set to 'Startup Representative' on the left and 'Investor' on the right). Both forms have an orange 'Register' button and a link to 'Sign in' if the user already has access.

(register as Startup Rep)

(register as Investor)

2. Login

The image shows a login form titled 'Sign in' with the subtitle 'Use your registered account to continue into the workspace.' The form has two input fields: an email field (containing 'abc@gmail.com') and a password field (containing '...'). Below the password field, there is a red error message 'Invalid Credentials'. The form has an orange 'Sign In' button and a link to 'Register' for new users.

(login with invalid credentials)

Sign in

Use your registered account to continue into the workspace.
