INTRODUCTION

This user manual provides instructions on how to use the Startup Incubator Management System (SIMS). This system is designed to help manage startups, investors, funding activities, and milestones in one place. It allows users such as startup representatives and investors to log in, update information, track progress, and perform actions based on their roles.

USER ROLES

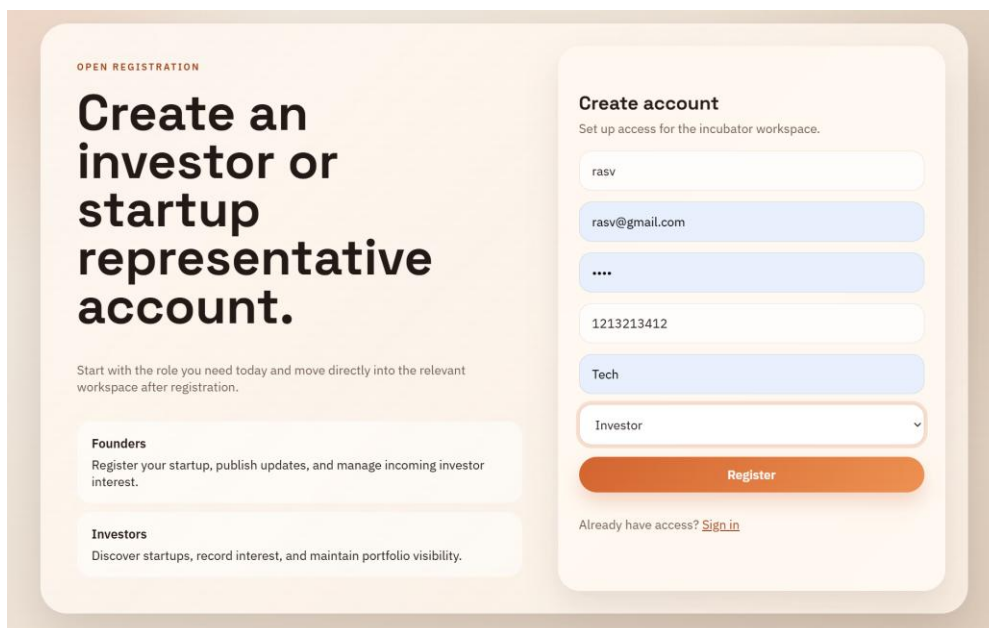

- Startup Representative → Manage startup details
- Investor → View and invest in startups

SYSTEM REQUIREMENTS

- A device such as a computer, laptop, or smartphone
- A modern web browser (e.g., Google Chrome, Mozilla Firefox, Microsoft Edge, or Safari)
- Stable internet connection

REGISTER & LOGIN

Upon entering the system you will see the login page. If you are an existing member, enter your details. Upon successful login, you will be redirected to your respective dashboards. In case of any mismatch in credentials, you will be alerted by the system via a corresponding message. If you are a new user, click the register option shown on the login page. You will be redirected to the registration page. Fill in the details accordingly and choose the role (startup representative / Investor). Upon successful registration, proceed further.

OPEN REGISTRATION

Create an investor or startup representative account.

Start with the role you need today and move directly into the relevant workspace after registration.

Founders
Register your startup, publish updates, and manage incoming investor interest.

Investors
Discover startups, record interest, and maintain portfolio visibility.

Create account
Set up access for the incubator workspace.

INCUBATOR OS

Role-based access for founders, investors, and admins.

Coordinate startup progress, funding signals, and reporting from a single operational workspace.

Cohort visibility
Track startup readiness, milestones, and funding movement in one place.

Role-based workflows
Give each user a focused workspace without losing shared context.

Faster decisions
Search, review notifications, and act on investor activity with less friction.

Sign in

Use your registered account to continue into the workspace.

OVERVIEW FOR MEMBERS

Based on the role mentioned while logging in, members will be redirected to a dashboard exclusive for them. You will see your profile page upon redirection to the overview. On the

left-hand side, there will be a navigation bar with all the necessary functionalities. User can search for other user or startups.

CREATING A STARTUP

After logging in as a Startup Representative, users can access the “Create Startup” option from the dashboard. Upon selection, a form is displayed where users can enter startup details such as name, domain, funding stage, and other relevant information. After filling in the required fields, users can submit the form to create a startup profile.

MY STARTUPS

The “My Startups” section allows Startup Representatives to manage and monitor their registered startups. Users can **update** startup details, track funding progress, and manage milestones. This section displays important information such as publishing status, target amount, funds raised, equity allocation, and number of investors.

Users can add and manage **milestones** by providing a title, description, status, and progress. The **funding history** section shows all investment activities, including commitments and approvals from investors. Additionally, the investor offers section lists all offers received from investors along with their responses, enabling users to track and manage investment interactions effectively.

Update Profile

INVESTOR INTEREST

The “My Interests” section allows investors to track the offers they have submitted to various startups. It displays details such as the startup name, offered amount, equity percentage, and the current status of the offer. Users can also view the startup’s response to each offer, such as whether it has been accepted or not.
